Prelude from Suite No.1 for unaccompanied cello

12 Bb

Toccata was originally composed for the harpsichord, so it is not surprising that they respond well to a percussion treatment. Here we are offering a new approach based on combinations of some of the latest synthesizer tools to bring fresh colors to the music and highlight the dazzling counterpoint. For the Toccatas and Brandenburg concerts, on the other hand, we used marimba and steel drum combinations to create a really interesting sound. Donation: If you like music I would be grateful if you would make a donation to the charitable trust fund run by Croydon Whitgift Rotary Club. Double violin concerto in D BWV minor BWV 1043 The flute Concerto A` a simpler arrangement with steel drums taking the flute part supported by a slow synth, the marimba taking the main orchestral parts while another slow synth fills for the cello and the Marimba register makes its first appearance as BASSO CONTINUO. These are the first works in which the composer A was able to give the free reign to his musical imagination and virtuosity. 3 in D Major, BWV 106805Nenuets in G major, BWV ANH.
